Lettres persanes (Persian Letters) is a literary work by Charles de Secondat, baron de Montesquieu, recounting the experiences of two Persian noblemen, Usbek and Rica, who are traveling through France. In 1711 Usbek leaves his seraglio in Isfahan to take the long journey to France, accompanied by his young friend Rica. He leaves behind five wives in the care of a number of black eunuchs, one of whom is the head or first eunuch. During the trip and their long stay in Paris (1712-1720), they comment, in letters exchanged with friends and mullahs, on numerous aspects of Western, Christian society, particularly French politics and Moors, ending with a biting satire of the System of John Law. Over time, various disorders surface back in the seraglio, and, beginning with Letter 139, the situation there rapidly unravels.

'Oh! Monsieur is Persian? That's most extraordinary! How can someone be Persian?' Two Persian travellers, Usbek and Rica, arrive in Paris just before the death of Louis XIV and in time to witness the hedonism and financial crash of the Regency. In their letters home they report on visits to the theatre and scientific societies, and observe the manners and flirtations of polite society, the structures of power and the hypocrisy of religion. Irony and bitter satire mark their comparison of East and West and their quest for understanding. Unsettling news from Persia concerning the female world of the harem intrudes on their new identities and provides a suspenseful plot of erotic jealousy and passion. This pioneering epistolary novel and work of travel-writing opened the world of the West to its oriental visitors and the Orient to its Western readers. This is the first English translation based on the original text, revealing this lively work as Montesquieu first intended. Persian Letters is a satirical novel in an epistolary form. Montesquieu narrates the experiences of two fictional Persians travelling through France. Through the characters, the barbarism of contemporary French life is analyzed from an outsider's perspective. He compares European and non-European societies, role of religion, systems of government, political authority, and the role of law.

Based on the 1758 edition, this translation strives for fidelity and retains Montesquieu's paragraphing. George R. Healy's Introduction discusses The Persian Letters as a kind of overture to the Enlightenment, a work of remarkable diversity designed more to explore a problem of great urgency for eighteenth century thought than to resolve it: that of discovering universals, or at least the pragmatic constants, amid the diversity of human culture and society, and of confronting the proposition that there are no values in human relationships except those imposed by force or agreed upon in self-interested conventions.

A classic work of the European Enlightenment--and one of the most popular, if scandalous, in its day--the Persian Letters captures, in an engaging epistolary format, the transformational spirit of the era. Amid an ongoing tale rife with sex, violence, and wit, the work addresses a diverse range of topics from human nature and the origins of society, to the nature and role of religious belief, the role of women, statecraft, justice, morality, and human identity. With skill and artistry, Raymond MacKenzie's stunning new translation accurately reflects the mood and character of the work. In his richly conceived Introduction, MacKenzie seamlessly weaves together an overview of the period with details of Montesquieu's life, including the influences that inspired the Persian Letters, the character and power of the book, and its reception. This edition also includes a Calendar of the Persian Letters, a Bibliography of Works in English, and a Bibliography of Works in French. Related texts provide insight into the legacy of the Persian Letters. They include selections from works by George Lyttelton, Voltaire, Oliver Goldsmith, and Maria Edgeworth.
