As the world grows increasingly interconnected, data communications has become a critical aspect of business operations. Wireless and mobile technology allows us to seamlessly transition from work to play and back again, and the Internet of things has brought our appliances, vehicles, and homes into the network; as life increasingly takes place online, businesses recognize the opportunity for a competitive advantage. Today's networking professionals have become central to nearly every aspect of business, and this book provides the essential foundation needed to build and manage the scalable, mobile, secure networks these businesses require. Although the technologies evolve rapidly, the underlying concepts are more constant. This book combines the foundational concepts with practical exercises to provide a well-grounded approach to networking in business today. Key management and technical issues are highlighted and discussed in the context of real-world applications, and hands-on exercises reinforce critical concepts while providing insight into day-to-day operations. Detailed technical descriptions reveal the tradeoffs not presented in product summaries, building the analytical capacity needed to understand, evaluate, and compare current and future technologies.

Learn to Write Business Messages Quickly and Easily with the Three-Step Process You will learn to write business messages quickly, easily, and effectively with the exclusive Bovee/Thill/Schatzman three-step process: planning, writing, and completing business messages. When you use a process, you move toward a particular result, and this text's three-step process helps you get better results than you would get with any other business communication textbook. Students and instructors alike will appreciate how this practical, three-step strategy provides a solid foundation for solving communication problems and creating well-crafted business messages. The three-step process is fully integrated throughout the book. It is introduced and explained in detail in chapters 4-6, just before the specific types of business messages are discussed. Then the three-step process is applied to short messages (letters, memos, and e-mail) in chapters 7-9, to reports and proposals in chapters 12-14, to speeches and oral presentations in chapters 15-16, and to employment messages in chapters 17-18. *Planning *Analyze Study your purpose, lay out your writing schedule, and then profile your audience. your audience. *Analyze Study your purpose, lay out your writing schedule, and then profile your audience. *Writing *Organize Define your main ideas, limit the scope, group your points, and choose the direct or indirect approach. *Compose Control your style through level of formality and conversational tone. Choose your words carefully so that you can create effective sentences and paragraphs. *Completing *Revise Evaluate content and review readability, editing, and rewriting for clarity and conciseness. *Produce Use effective design elements and suitable delivery methods. *Proofread Review for errors in layout, spelling, and mechanics. This text provides dozens of superb examples of the finished product, including documents from such well-known companies as Krispy Kreme Doughnuts, Ace Hardware, Target, Office Depot, Petsmart, and Carnival Cruise Lines, to name just a few. Many documents are accompanied by a graphic describing how the three-step process is applied, and all include annotations in the margins that discuss precisely how to apply the principles presented in the text. reasons that Business Communication Today is the most successful business communication textbook published in the past 50 years.

This collection is a guide to greater communication efficiency in both clarity and time-management for any professional or aspiring professional. It guides the reader through the ways in which communicating through technology rather than face-to-face can alter their perceptions of others and the perceptions others make of them. Each chapter concisely summarizes existing studies from the fields of communication, psychology, philosophy, and engineering to lead the audience to very practical guidelines to make their professional communication world easier and more efficient. The book is divided into three sections. The first focuses on the more abstract components of communication, such as creating connections and navigating humor. The second part deals with more applied knowledge, offering guides to specific and common technologies used for communication such as email and video conferencing. The final section focuses on training for both trainers and trainees. The volume gathers together contributions by 29 scholars, all of whom offer their own unique expertise and guidance to the audience.
