THE IMMORTAL LIFE OF HENRIETTA LACKS WEBQUEST WEBQUEST A descendent of freed slaves, Henrietta Lacks was an African American tobacco farmer who got cervical cancer when she was 30. A doctor at Johns Hopkins took a piece of her tumor and put it in a test tube without her consent or knowledge and, although she died 8 months later, her cells-known worldwide as HeLa cells-are still alive today.

Inside Cancer Blog. Jumping Down the Road to Cancer. Lying dormant in our genomes are millions of jumping genes. Originally discovered by Barbara McClintock, transposons are DNA sequences that can move from one location to another in our DNA. Transposons cause mutations when they jump to new locations, so keeping them from jumping is important.

Simplified Chinese edition of A Raisin in the Sun

Written by a massage therapist for massage therapists, Mosby's Pathology for Massage Therapists, 3rd Edition provides direct information along with focused recommendations. Coverage of over 340 pathologies helps you appropriately tailor massage treatment, and more than 750 full-color photographs and illustrations make it easier to recognize common pathologies. This edition includes a new chapter on geriatric massage and has been extensively reviewed by over a dozen experts in the massage and medical fields. Written by massage therapy educator and practitioner Susan Salvo, this resource provides the pathology knowledge you need to succeed on licensure and certification exams and in practice. A traffic light icon appears before each pathology in the book, designating whether massage is contraindicated (red), local contraindication (yellow), or indicated (green) for that particular pathology. Consistent format for each chapter makes it easy to find key information with learning objectives, list of pathologies, system overview, and pathologies, including description, etiology, signs and symptoms, treatment, and massage considerations. Student-friendly features in each chapter include learning objectives and self-tests that measure your comprehension. Medical Technology boxes highlight special populations, such as clients in wheelchairs or with pacemakers, and explain what the medical device is, and what special precautions or contraindications you should be aware of before working on these clients. Spotlight on Research boxes summarize recent studies of massage therapy and its effects. Student resources on an Evolve companion website include interactive activities, video clips of techniques, animations, the Body Spectrum coloring book, flashcards, review questions, additional case studies, an image collection, an audio glossary, study tips, stress-busting tips, research updates, and more. Mosby's Pathology for Massage Therapists Online reinforces content covered in the book and provides a dynamic

way to learn key concepts, with features including recall activities, rollover glossary terms and definitions, animations, quizzes, and Clinical Tips boxes. (Available separately.)

Read This! is a four-book reading series designed for adult and young adult ESL students at the high beginning to intermediate levels. The series helps students develop reading fluency by having them read and interact with high interest, content-rich texts containing fascinating information written in an accessible narrative style. It is a stepping stone for students who are on track to read in English at higher levels for academic purposes. The readings and approach are also appropriate for students who are not on an academic track, but want to improve their reading ability in English and overall language proficiency. The readings tie in with academic subject areas and the accompanying pedagogic tasks aid reading comprehension skills, critical thinking skills, and the development of both content-specific and general academic vocabulary knowledge. Each Student's Book is supported by a Teacher's Manual with unit tests and a student Web site with fun WebQuests.

Death of a Salesman by Arthur Miller. In Traditional Chinese. Annotation copyright Tsai Fong Books, Inc. Distributed by Tsai Fong Books, Inc.

NUTRITION COUNSELING AND EDUCATION SKILL DEVELOPMENT helps entry-level nutritional professionals develop a solid foundation in counseling and education principles and evaluation methodologies. Taking a clear, engaging, step-by-step approach, the book includes case studies and first-person accounts and gives students opportunities in every chapter to practice new skills. Students learn to translate theoretical perspectives on nutrition counseling into effective dialogues that have the power to influence client knowledge, skills and attitudes. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.
