The smaller Chinese diesel engines are generally pretty bullet proof. A few Volunteer Fire Departments around this way bought Chinese-built diesel gensets for the "Y2K" insanity. These gensets are a bit larger (about 15 Kva), using water cooled 4 cylinder Chinese diesel engines, direct coupled to generators.

Kaito Power, the main member of ChangChai group, is manufacturing and trading on diesel engine, diesel generator, diesel welding generator, diesel water pump and spare parts, etc. Kaito has an excellent independent team focusing on diesel power with advanced assembly lines, auxiliary equipment and testing equipment to guarantee the quality.

Featuring case studies from varied settings with strong grounding in real-world decisions, this text illustrates basic concepts while expanding students' understanding of economic, political and cultural concerns that must be interwoven into such key areas as process design, quality and supply chain management.

This manual is specifically designed to help train actual and potential farm mechanization service providers, in order to increase access to sustainable farm power to raise the productivity of smallholder farmers. It focuses on two crucial aspects: the provision of farm mechanization services as a viable business opportunity for entrepreneurs, and the essential criteria of raising productivity in an environmentally sensitive and responsible way i.e. that includes conservation agriculture. Practical guidance on the essential business development and management skills required to successfully run a mechanization service provision business are presented, with a focus on the equipment required to offer services compatible with conservation agriculture. The manual will be of particular interest to policymakers' intent on achieving sustainable intensification in the agricultural sector. It is also a valuable resource for trainers charged with increasing the supply of well-trained and well-equipped entrepreneurial mechanization service providers through the implementation of training courses tailored to the specific course locations.

Presents an in-depth picture of China today in social, economic and political terms, examining the record of 50 years of Communist rule, its successes and failures.

This Standard specifies the limits and measurement methods for non-road diesel engine weighted specific fuel consumption. This Standard is applicable to non-road diesel engines whose rated power is not greater than 560 kW (hereinafter referred to as diesel engines); the used fuel is light diesel oil, excluding marine diesel engines that use heavy oil.

This Standard specifies the sound power level limit values of emitted noise of 4 grades for reciprocating internal combustion engines. This Standard applies to the reciprocating internal combustion engine defined in GB/T 21404.
