Sharp, Register, and Grimes ' Economics of Social Issues originated the social issues
approach to teaching basic economic principles and has garnered a loyal user
following for its timely and impartial handling of current social issues that dominate
the news. The primary objectives of the book are to create student interest in the
study of economics and provide a framework of basic analytical tools useful in the
understanding of social issues. This edition provides fresh perspectives on current
societal trends and public debates to stimulate classroom discussion and help
students learn the important basic principles of economics. Each chapter presents
economic concepts then places them within the context of current issues facing
society.
