Re: Evinrude 235 V6 The basic parts between
the 175 and 235 are identical and should
interchange. They are both big bore blocks
with 1 3/8" carbs. The 235 was crank rated,
the 175 is a propshaft rated engine. Same
thing. The 235 was a very optimistic rating
at the time and the 175 is a conservative
propshaft rating.
