If a bad attitude could be subject to copyright, my ten years as a waiter would have left me obscenely wealthy. Working the floor, I was the Kerry Packer of passive aggression. Sullen insolence was my personal trademark, diligently honed and perfected over time. For a long list of perceived diner slights - ranging from ordering the tomato sauce separately to the fries, to calling me 'dear' - I could perform a Jekyll and Hyde switch into the most perfunctory, robotic and joyless server the world has ever seen. If I didn't like a group of people I would endeavour to do my very best

to ensure that the only thing left of their night was a cold, dry husk. That I regularly used something I privately referred to as the 'Dead Eyes' should reveal plenty. Before she was one of Australia's top restaurant critics, Larissa Dubecki was one of its worst waitresses. A loving homage to her ten-year reign of dining-room terror, Prick With a Fork takes you where a diner should never go. From the crappiest suburban Italian to the hottest place in town, what goes on behind the scenes is rarely less fraught than the seventh circle of hell. Psychopathic chefs, lecherous owners,

Birmingham impossible demands and insufferable customers are just the start of an average shift. Therapy for former waiters, a revelation to diners, and pure reading pleasure for anyone interested in what really happens out the back of the restaurant, Prick With a Fork is an hilarious and horrific dissection of the restaurant industry, combining the gritty take-no-prisoners attack of Anthony Bourdain's Kitchen Confidential with the gross confessions and forensic grunge of John Birmingham's He Died with a Felafel in His Hand. Dining out will never be the same again.

An electrifying, epic history of the city of Sydney as you have never seen her before. 'To peer deeply into this ghost city, the one lying beneath the surface, is to understand that Sydney has a soul and that it is a very dark place indeed.' Beneath the shining harbour, amid the towers of global greed and deep inside the bad-drugs madness of the suburban wastelands, lies Sydney's shadow history. Terrifying tsunamis, corpse-robbing morgue staff, killer

Birmingham shattered by the nexus between government, big money and the underworld, where the glittering prizes go to the strong, not the just. Combining intensive research with the pace of a techno-thriller, John Birmingham creates a rich portrait of a city too dazzled by its own gorgeous reflection to care much for what lies at its dark, corrupted heart. Illuminated by wild flashes of black humour, violent, ghoulish and utterly compelling, Leviathan is history for the Tarantino generation.

John Birmingham is a master of good writing and funny lines. He has written a thousand stories, some true, some not so much. These are the best ones and they're so good, and so funny, there has been no barrel-scraping involved. Really, this book could have been much longer. The pieces contained within these pages run the gamut from the early felafel days to the shiny age we live in where Donald Trump is the President of the USA. And it does not shy away from the greatest controversy of our age: potato cake vs potato
