In direct and understandable language this book tells what is possible for children to learn and to practice about the liturgy of the Church both at home and in the parish. Covering the whole Church year, Halmo focuses on the importance of the Sunday observance as the renewal of the Pasch, and she urges parents to concentrate on that instruction rather than on observing the major feast days. The pleasant blend of instruction, background data, and illustrations, along with the activities and prayers for celebrating the liturgical calendar with children, makes this an excellent choice for families with pre school children.

Massive, identical, concrete housing blocks are one of the most iconic and enduring legacies of life behind the Iron Curtain. Often, they are assumed to represent the drab and soul-crushing nature of a failed totalitarian system. But what was life really like in such places? What is their real history and real meaning? Amnesiopolis argues that they were part of a utopian project to build a new society out of whole cloth, to sever ties with the material traces of the pre-

By looking at the largest of these 'new towns', Marzahn, outside Berlin, this volume demonstrates the ways in which East Germans experienced their lives in the prefabricated and mass-produced blocks as a rebirth, not just for their own lives, but also in the broader scope of the history of socialism and Germany.
