Now in its fifth edition, Management Accounting for Business is the ideal introductory text for non-specialist students studying management accounting within business courses at both undergraduate and MBA levels. It provides students with a foundation in the theory and practice of management accounting and emphasizes its role in making business decisions. Management Accounting for Business is written by Colin Drury, the renowned accounting educator and author whose range of market-leading textbooks has defined management accounting for the past 25 years.

This student book is accompanied by an ActiveBook (a digital version of the student book) and covers both the AS and A level courses for

the Edexcel business specification from 2015. The student book contains clear signposted links and support for quantitative skills, synoptical, evaluative, and analytical skills to help you develop your conceptual understanding of each topic.

Everything you need to know in order to start, maintain, and provide service for a business collection, and to research virtually any business topic. • Includes hundreds of topical chapters that cover key resources in-depth • Provides a core list of the most essential library business resources • Contains contributions from an all-star cast of experienced business librarians • Bibliographic information regarding key resources is woven throughout the book

Business Law, 5th Edition (James et al.) is written for business students to provide a clear and accessible introduction to the legal system. Business law courses are the first exposure to law for many business students and the first time they are obliged to think deeply about the discipline. This updated edition presents business law in a practical context rather than the doctrinal context that many major legal publishers use. The Business Law interactive e-text features a range of instructional media content designed to provide students with an engaging learning experience. This includes practitioner videos from Herbert Smith Freehills, animated work problems and questions with immediate feedback. This new edition is a unique resource that can form the basis of a blended learning solution for lecturers.

NOTE: This edition features the same content as the traditional text in a convenient, three-hole-punched, loose-leaf version. Books a la Carte also offer a great value; this format costs significantly less than a new textbook. Before purchasing, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. Several versions of MyLab(tm) and Mastering(tm) platforms exist for each title, including customized versions for individual schools, and registrations are not transferable. Primarily intended for the first course in financial accounting for the postgraduate students of management, this systematically organized text discusses the essential concepts, principles and methods of financial accounting. It covers all important financial concepts and corporate financial reporting practices. The book, in its Fifth Edition, includes Revised Schedule III to the Companies Act, 2013, which provides Balance Sheet and Profit and Loss Account Format. Besides, more illustrations have been provided for easy grasping of the concept. The Schedule VI has also been explained at the appropriate places. While the emphasis throughout is given on the fundamentals, the book also skilfully analyzes advanced topics such as financial instruments, earnings management, internal control and internal audit, business combination and the logit model.
