Introduction to Maternity and Pediatric Nursing - 7th Edition

The seventh edition of this textbook for nursing undergraduates "encompasses the core aspects of evidence-based maternal-child nursing in health and illness, incorporating updates in clinical care and technology."--Page xi.

Gain a solid foundation in Canadian maternity and pediatric nursing! Written in a clear, concise, friendly style, Leifer's Intro to Maternity & Pediatric Nursing in Canada, is the first Canadian edition of the best-selling Leifer textbook. Fully revised by author, Lisa Keenan-Lindsay, RN, MN, PNC(C), it includes Canadian statistics, terminology, references, guidelines, resources, Canadian nursing best practices, assessments, and more! It's organized by developmental stages and includes discussions of pediatric disorders by body system from simple-to-complex and health-to-illness. With a rich focus on family health, this text contains exam-style review questions, case studies, and numerous other pedagogical features to give you the tools you need to successfully care for patients within the Canadian social and institutional context. Logical organization of content by simple-to-complex and health-to-illness, make it easy for students to locate and access information. Health Promotion Considerations boxes focus on preventive strategies for achieving prenatal wellness, health during pregnancy, postpartum health, newborn health, and pediatric illness prevention and wellness—including Canadian immunization schedules for all ages. Unfolding case studies with open-ended critical thinking questions assess application of content to practice as students follow one family through conception and the birth process. Nursing Care Plans provide expected outcomes, interventions, and rationales for nursing interventions. Comprehensive coverage of over 35 skills, outlined in step-by-step format cover a wide range of maternal and pediatric nursing interventions. Focus on health promotion and illness prevention, covers women's health issues, and growth and development of child and parent. Cultural considerations applied as they relate to maternal/infant, and pediatric care in detailed tables. Safety Alerts emphasize protecting patients, family, health care providers, and the public from accidents, medication errors, and the spread of disease. Nursing Tips throughout text provide pertinent information applicable in the clinical setting. NEW! Fully revised content for a Canadian audience includes statistics, terminology, references and resources. 2019 Canada's Food Guide, guidelines from the Society of Obstetricians and Gynaecologists of Canada (SOGC), the Canadian Paediatric Society (CPS), and the Public Health Agency of Canada. Canadian nursing best practice guidelines, assessments, and more! NEW! Strong focus on health promotion includes application of the social determinants of health, greater emphasis on community nursing, primary health care, and family-centred care approach. NEW! High-Risk Newborn chapter combines preterm/post-term newborn with the child born with a congenital condition. NEW! Chapter covers caring for the child with a chronic illness or in palliative care. UNIQUE! Baby-Friendly initiatives incorporated throughout the text. UNIQUE! Canadian cultural considerations include content related to Indigenous Peoples is threaded throughout all applicable chapters. NEW! Updated labour information based on Canadian guidelines and the five P's of labour. NEW! Complete inclusion of Canadian medications, dosages, and metric measurements. NEW! Enhanced and updated art programme reflect Canada's cultural diversity in the health care setting. NEW! Coverage of Canadian ethical and legal standards, and provincial and territorial legislation. NEW! Critical Thinking questions applies concepts learned in the chapter to practical situations. NEW! UPDATED! Examination review questions prepare students for their Certification Exams. NEW! Expanded coverage on safety includes maternity and pediatric care in the home and community

Part of the popular LPN Threads series, Introduction to Maternity ; Pediatric Nursing provides a solid foundation in obstetrics and pediatric nursing. An easy-to-follow organization by developmental stages, discussion of disorders by body system from simple-to-complex and health-to-illness, and a focus on family health make it a complete guide to caring for maternity and pediatric patients. Written in a clear, concise style by Gloria Leifer, MA, RN, this edition reflects the current NCLEX test plan with additional material on safety, health promotion, nutrition, and related psychosocial care. "... provides clinical information and insights in a concise, structured and informative way that encourages critical thinking." Reviewed by Kim Shrieves on behalf of Nursing Times, April 2015 Concise, yet comprehensive, content is presented within the scope of practice for the LVN/LPN, but with sufficient depth to facilitate students in a ladder program allowing them to be successful with the ADN program requirements for the specialties. Step-by-step procedure lists throughout the text help you master important maternity and pediatric nursing processes with Skills Performance Checklists available on the Evolve website. Nursing Care Plans with Critical Thinking Questions reinforce the nursing process and strengthen problem-solving skills as applied to maternity nursing. Logical organization of content from simple-to-complex and health-to-illness makes locating and accessing information easy. Key terms with phonetic pronunciations and text page references help improve terminology and language skills of English-as-a-Second-Language (ESL) students and students with limited proficiency in English, before they enter clinical practice. Health Promotion boxes emphasize the importance of family-centered care, health promotion and illness prevention, women's health issues, and growth and development of child and parent to help you understand and teach wellness and disease prevention to patients in your care. Nutrition content highlights the importance of proper nutrition for women before, during, and after pregnancy (for those who are breastfeeding), as well as critical information about the nutrition needs and problems of newborns, infants, and children. Nursing Tips throughout provide pertinent information applicable in the clinical setting that reinforces what you have just learned while building on previously learned information. NEW! Unfolding case studies with illustrations follow first-time parents Tess and Luis throughout the stages of pregnancy and birth of their twins, with a series of critical thinking questions. NEW! Updated NCLEX exam-style review questions have been revised to a higher cognitive level to better reflect the NCLEX examination. NEW! Expanded coverage of bioterrorism and natural disasters better reflects the evolving role of the nurse in disaster situations. NEW! Enhanced appendix includes Pediatric Lab Values for quick and easy reference.

Part of the popular LPN Threads series, this leading text provides a solid foundation in obstetrics and pediatric nursing. Its concise, logical organization by developmental stages, discussion of disorders by body system from simple-to-complex and health-to-illness, and a focus on health promotion and on the family make it a complete guide to caring for maternity and pediatric patients. Focuses on family-centered care, health promotion and illness prevention, women's health issues, and growth and development of the child and parent. Covers a wide range of maternal and pediatric care with 35 skills and provides expected outcomes, interventions, and rationales for nursing care 30 nursing care plans. Critical Thinking Questions at the end of each Nursing Care Plan challenge students to evaluate and apply the plan of care to specific clinical situations. Nursing Tips throughout the text provide pertinent information applicable in the clinical setting. Pictorial story of a vaginal birth includes photos through delivery. Cultural considerations as they relate to pregnancy and delivery, maternal/infant, and pediatric care in detailed tables help nurses develop cultural sensitivity when caring for diverse patient populations. Cultural Assessment Data Collection Tool checklist assists the nurse in developing an individualized plan of care. Health Promotion Considerations boxes focus on prenatal wellness, health during pregnancy, postnatal health, and more. Companion CD-ROM, bound with the book, includes videos of both a normal delivery and a cesarian birth, 70 neonatal and pediatric assessment video clips, 3-D animations, audio glossary, and Patient Teaching Plans in Spanish and English. Discusses CPR specifically for the pregnant patient. MyPyramid illustrates the 2005 revised nutrition guidelines from the U.S. Department of Agriculture. Provides discussions of changes in clinical care recommendations, including use of ipecac® for poisoning, vaginal birth after caesarian, and pain relief in newborns. Includes the latest content on infectious diseases acquired during pregnancy, sexual abuse, assault, rape in the pediatric population, and the adolescent as a parent. Includes an appendix of JCAHO Lists of Dangerous Abbreviations, Acronyms, and Symbols.

Leifer's Study Guide for Introduction to Maternity and Pediatric Nursing is a rich resource that enhances your comprehension and application of material from every chapter of the textbook. With a variety of learning activities, critical thinking exercises, case studies, and review questions, this study guide reinforces your mastery of the essential maternity and pediatric nursing concepts and skills you need to pass the NCLEX-PN® Examination and succeed in your nursing career. NCLEX exam-style multiple-choice review questions at the end of each chapter test basic chapter knowledge as well as ask for appropriate nursing actions, what the nurse should expect in terms of medical care of the patient, and what complications the patient is at risk of developing. Case Studies and Applying Knowledge activities provide additional opportunities to apply learned information to clinical care. Thinking Critically activities require you to apply what you've learned in the textbook to new situations and draw conclusions based on that knowledge. Learning activities include matching, labeling, and completion exercises to help you learn basic concepts of maternity and pediatric nursing. Crossword puzzles in selected chapters are a nice way to change up the format when testing comprehension of terms and concepts. Answer key is located on the student's Evolve website. Several Thinking Critically sections and case studies with critical thinking questions have been added. Alternate-item format questions are included in the review questions for the NCLEX® Examination.

Corresponding to every chapter of the Leifer textbook, Study Guide for Introduction to Maternity and Pediatric Nursing, 8th Edition is a rich resource that enhances your comprehension and application of the material.
