When you receive new mail, K-9 will retrieve it (POP) or poll for it or receive a PUSH notification about it (IMAP/WebDAV). If so configured, K-9 will use the Android system notifier facility to alert you to the new messages so you can read them. K-9 will display a notifier on the window-shade for each mailbox which has new messages.

A well-trained tracking dog can be the deciding factor in both criminal investigations and search-and-rescue operations. When the stakes are high and you demand only top performance from your K9, you need training methods relied upon by police forces and search-and-rescue teams around the world. Dr. Resi Gerritsen and Ruud Haak show you how to train your dog in clean-scent tracking, a proven method that trains dogs to follow a particular scent on a track while ignoring crosstracks and other odors. In *K9 Professional Tracking*, you'll learn how to start a successful clean-scent tracking program from the ground up: how to pick the right dog, what equipment you need, how to lay a track, and which exercises work. Resi and Ruud also break down the science of scent and the dog's nose, critical information that allows you to fully understand what your K9 is and is not capable of in the field. With the right knowledge and techniques, you'll be able to train tracking dogs to the highest professional standards.

A comprehensive guide to training and certifying K9 explosive detection teams Learn how to: - Train your K9 to detect and safely alert for explosive substances. - Conduct operational searches in buildings, vehicles, ships, and planes. - Train your dog for the specialized work of mine detection. In the high stakes realm of explosive detection, where even the smallest mistake can have fatal consequences, the margin of error is zero. Well trained dog-handler teams can play a key role in explosive detection, but only if their training is top notch. Dr. Resi Gerritsen and Ruud Haak have worked with police departments around the world to help them establish and improve their K9 explosive detection training programs, and in this book they share their expertise with handlers and trainers looking to enhance their own performance. They teach how to pick the right dog for explosive detection work, how to train the dog to detect explosives, and how to properly execute a variety of training and operational searches. They also provide some of the background knowledge you'll need about common explosives and the many factors that can influence a K9's work. Along with essential health and safety precautions for you and your dog, you'll also learn how to test and certify dogs and handlers to ensure excellent performance in the field.

Understand dog behavior to work with, not against, your K9's instincts. Learn how to: Recognize and interpret your K9's expressions, gestures and signals. Use operant conditioning to efficiently and humanely train K9s. Plan and execute effective K9 training programs for search and detection, patrol, remote guided camera, attack, and more. The art and science of training police, military and other service dogs continue to evolve as we learn more about dog behavior. In this revised edition of *K9 Behavior Basics*, expert dog trainers Dr. Resi Gerritsen, Ruud Haak and Simon Prins share the essentials every trainer needs to know about these advances in K9 training. You'll learn how to successfully implement or improve your dogs' training programs using operant conditioning. The authors outline key concepts in dog behavior and communication and provide practical approaches to operant conditioning. They share proven techniques and solid advice from their more than thirty years of specialized K9 experience. Whether you're just starting out or are a seasoned pro staying up-to-date, *K9 Behavior Basics* has something for you. Get a free ebook through the Shelfie app with the purchase of a print copy.

Create a safe, successful K9 training program that results in reliable protection dogs. Learn how to: Select the optimal breeds, temperament and physical and mental characteristics for protection work. Master the obedience-training techniques that form the foundation of protection training. Use the methods of the Dutch Police Dog (KNPV) program, which produces some of the finest police and protection dogs in the world. Dr. Resi Gerritsen and Ruud Haak, leading dog trainers from the Netherlands, share their proven, comprehensive program for training dogs for personal protection. Their cutting-edge techniques and work with the International Red Cross, the United Nations and the International Rescue Dog Organization (IRO) have placed them in world demand. In this fully revised and updated edition of *K9 Personal Protection*, Resi and Ruud start with the basics, including how to select the right dog for protection work, how to properly raise a protection dog from a puppy and how to correct a dog's bad behavior. Next, they cover fundamental obedience training for protection dogs, such as training for heelwork, the recall, the send away and more. Finally, they present a complete program for training reliable protection dogs, from basic exercises and decoy techniques to the exercises of the KNPV program. Get a free ebook through the Shelfie app with the purchase of a print copy.

Whether you're searching for drugs or a missing person, *K9 Scent Training* will improve your K9 team's capabilities in the field. Use proven techniques to train your dog for: Scent identification line-ups to indicate a scent connection between crime-scene evidence and a suspect. Tracking along a wide variety of track types, including the cold track, the broken-off track and tracks that run over or under cross-tracks. Detection work for searches in buildings, vehicles, open terrain and more. In this must-have guide for SAR teams and police K9 trainers and handlers, Dr. Resi Gerritsen and Ruud Haak present everything you need to know to build or improve a scent training program. Scent training involves high-stakes work, and in the case of a search for a missing person, the right training for your K9 can mean the difference between life and death. Beginning with the science behind odors and how dogs perceive them, Resi and Ruud show you how to harness that knowledge to eliminate training problems and maximize your dog's potential. You'll learn how to start scent training for young dogs using simple exercises before building up to more complex training. Finally, using techniques they've perfected over decades, Resi and Ruud share their specialized, step-by-step programs for advanced scent identification training and tracking. Get a free ebook through the Shelfie app with the purchase of a print copy.

An Android smartphone or tablet makes it possible for you to stay online and do your offices and business work wherever you are going. With Android, you can do almost any computing task you can imagine. There are more than 400,000 Android applications (apps) to choose from. The majority of the apps are games and leisure programs. However, today there are also apps for practically any type of office work and business tasks that you can imagine. Many office tasks, which until recently could only be performed using a powerful PC or laptop, can today easily be done using an Android tablet or

smartphone. There are several excellent Android apps for word processing and spreadsheet calculations so that these and many other types of office work easily can be done on handheld Android device. This has led to a new way of working, which is often called mobile computing. There are many excellent brands of Android tablets and smartphones on the market. Samsung is today seen as the leading manufacturer of Android smartphones and tablets. In 2010, Samsung launched the Galaxy Tab 7.1 tablet. The Galaxy Tab 7.1 quickly became highly popular and a benchmark for other Android tablets. Later, more powerful and larger Galaxy tabs have been marketed, including the Galaxy Tab 7.7, 8.9, and 10.1. This book focuses on the Galaxy Tab 7.1. You will benefit most from the book if you have a Samsung Galaxy Tab 7.1. If you own another tablet or smartphone running on Android 2.2 (Froyo) or 2.3 (Gingerbread), you will also benefit from reading the book, as the different brands of Android 2.2./2.3 tablets and smartphones work much in the same way. The Samsung Galaxy Tab 7.1 tablet is ideal for Android mobile office computing due to its excellent communication capabilities and size. It has highly effective and versatile built-in chipsets and tools for mobile (cellular) data communication, Wi-Fi network connections, and Bluetooth communication. In addition, its GPS antenna and tools make accurate location determination and navigation possible. It fits easily into any briefcase - and even into a large pocket, making it very easy carry around. The main challenge of mobile computing is possibly to get online in different situations - in a way that is inexpensive, secure, and effective. While both mobile (cellular) broadband and public Wi-Fi networks are rapidly being expanded and improved, it may still now and then be difficult or expensive to connect, when you are outside your carrier's coverage. If you can find a fast and inexpensive connection, it may not be secure. In this book, you get the needed technical background to make it easier for you to get online in an affordable and secure way, wherever you are. You get detailed information about mobile computing using mobile broadband (cellular) networks and Wi-Fi connections. You are introduced to the mobile connection standards 2G, 3G, and 4G. You learn how to set up your Galaxy Tab for different types of mobile communication in your home country and abroad. You get detailed instructions on how to use email apps effectively on your Android smartphone and tablet. Last, you are introduced to some of the most popular and valuable Android apps for office work and other business tasks. The Samsung Galaxy Tab 7.1 exists in two different models as regards mobile communication: a CDMA/EVDO model, primarily intended for the US market; and a GSM/UMTS model, primarily intended for the non-US market. The book describes both major models.

The breads of master baker Klecko have been served in some of the finest restaurants in Minneapolis and St. Paul. With decades of international culinary experience, Klecko has baked for presidents, rock stars, and professional athletes. Now, he shares his favorite recipes for his favorite clients--the four-legged kind. K-9 Nation Biscuit Book offers three dozen recipes that are sure to get tails wagging; unique concoctions, including the exotic Seaweed-Miso Biscuit and a classic Sausage Biscuit; celebrity-inspired creations such as the Fritz Mondale Cherry-Cream Cheese Biscuit and the Cesar Millan Minnesota Biscuit; and the highly practical Tummy Biscuit and Bad Breath Biscuit. The recipes are presented in a straightforward, no-nonsense manner that puts your dog's tastes first--no fire-hydrant cookie cutters here! Instead, each recipe emphasizes high-quality ingredients and sound baking tradition to ensure that your pooch is receiving a healthy treat she won't be able to resist. Klecko's can't-miss recipes are paired with detailed nutritional information, sidebars with fun dog facts, and compassionate recollections about his own dog experiences. Master bread baker Klecko has spent nearly thirty years feeding the Twin Cities. He currently works as production manager for Saint Agnes Baking Company in St. Paul, Minnesota, and enjoys spending his free time with his pack of four.

A professional development masterclass for K9 detection teams and people who work with them. Explore: Questions, ideas, and opinions from handlers across the United States and around the world. Controversies and sensitive topics such as frauds, glory seekers, and credentials. Methods and practical tips gathered from more than 27 years of training and field work. It has been said that about the only thing two K9 handlers agree about is what a third handler is doing wrong. Whether in search and rescue or cadaver and human remains detection, there's a variety of opinions in how handlers and dogs train and work. K9 Teams: Beyond the Basics of Search and Rescue and Recovery uses solid science and the experience of dozens, if not hundreds, of handlers to explore the issues teams and organizations commonly encounter in training and operations. Vi Hummel Shaffer is a professional K9 handler who has worked in search and rescue and recovery, including mass fatality recovery, for over 27 years. Along the way she's attended dozens of seminars, learned from some of the top trainers in the world, and spent countless hours in the field working with a wide variety of agencies. In K9 Teams, Vi compiles the questions most often asked, the issues handlers struggle with, and some of the best suggestions handlers share with one another. K9 Teams explores dog selection, training methods, professional certification, team dynamics, issues such as post-traumatic stress disorder, and much more. Everyone working with or interested in detection dogs needs this book. Those in law enforcement, fire departments, and other emergency response agencies will also benefit from the book by learning what K9s can—and cannot—reliably do. Get the most from K9 teams in the field.
