During the past three decades, feminist scholars have successfully demonstrated the ubiquity and omnirelevance of gender as a sociocultural construction in virtually all human collectivities, past

Online Library Locker

and present. Decorations For

Intrapsychic, interactional, and collective social processes are gendered, as are micro, meso, and macro social structures. Gender shapes, and is shaped, in all arenas of social life, from the most mundane practices

Online Library Locker

of everyday life to those of the most powerful corporate actors.

Contemporary understandings of gender emanate from a large community of primarily feminist scholars that spans the gamut of learned disciplines and also includes

Online Library Locker

non-academic
activist thinkers.

However, while incorporating some cross-disciplinary material, this volume focuses specifically on sociological theories and research concerning gender, which are discussed across the full array of social processes,

Online Library Locker

Structures, and For
institutions. As
editor, I have
explicitly tried to
shape the
contributions to this
volume along
several lines that
reflect my long-
standing views
about sociology in
general, and gender
sociology in
particular. First, I

Online Library Locker

asked authors to include cross-national and historical material as much as possible. This request reflects my belief that understanding and evaluating the here-and-now and working realistically for a better future can only be

Online Library Locker

Accomplished from
a comparative
perspective. Too
often, American
sociology has been
both tempero- and
ethnocentric.

Second, I have
asked authors to be
sensitive to within-
gender differences
along class,
racial/ethnic, sexual
preference, and age
