was a troublemaker. By the time *The Devil: an Interview* is published, Gamal is living in exile in England. Publicly damned and burned by incensed Muslims in the Yorkshire city of Bruddersford, his book generates communal upheaval. Racial tensions erupt. Muslim girls, inspired by the fourteen-year-old Fatima, embark on a bitter strike to defend their right to wear the scarf of modesty in school. While the claims of women fuel the flames, young men embrace the Sons of Allah, dedicated to the execution of the apostate author Gamal Rahman. What should a writer owe to himself, and what to society?

and was a cherished companion of the emperor Arghun. After a mystical experience on the battlefield, he turned his back on a life of luxury and became a Sufi. He advanced rapidly in his spiritual quest and soon became one of the most influential Sufi masters in Iran. Working primarily from the most reliable Arabic and Persian manuscripts of Simnani's writings, the author has analyzed Simnani's thinking to show the overall coherence of his world-view and to demonstrate the importance of his ideas to the development of Islamic mysticism. Along with this analysis, the author provides a detailed account of Simnani's life and times, as well as a systematic description of Simnani's instructions for Sufi practioners of all levels.
