Hunt Marketing emphasizes the universal importance of marketing, not only because students (especially non-marketing majors) want to know “Why does this course matter to me?” but also because everyone is a marketer. Student engagement and relevance are emphasized throughout the second edition of Hunt Marketing:

- A career focus, to help students understand how marketing will support whatever career path they choose and how to develop their own personal brand.
- Integration of key topics that are part of the daily fabric of marketing—globalization, social media, ethics, and marketing analytics.
- Seamlessly integrated results-driven technology.
- The right content for a semester-long course. With 16 chapters (and further customization available in Create), the second edition of Hunt Marketing provides the perfect content mix for online, hybrid, and face-to-face Principles of Marketing students.

Marketing by C. Shane Hunt and John E. Mello was designed to demonstrate to students the connection between marketing and their future careers, whether students choose to pursue a major in marketing or another field. With a number of features to support this effort, including career tips in every chapter and a comprehensive marketing plan exercise that focuses on marketing the most important product in students' lives: themselves, Marketing is the most practical content available for the Principles of Marketing course. Supported by results-driven technology in McGraw-Hill's Connect Marketing and a focused table of contents covering all of the foundational topics in fourteen concise chapters, Marketing is the smart choice for instructors and students to adopt for the Principles of Marketing course.

"Hello, and welcome to Hunt, Mello, and Deitz's Marketing 3e. Students, particularly non-marketing majors, want to know, 'Why does this course matter to me?' We designed our product to emphasize the universal importance of marketing . . . because everyone is a marketer"--

Shelby Hunt's revision of "Foundations of Marketing Theory" continues the tradition of the previous three by providing a clear framework for advancing marketing thought and research.
