Daniel Jarvis and Irene Naested highlight the natural association between math and art in a series of practical ideas for the classroom, because when students understand the math/art connection, their understanding and confidence increase in both subjects. Through innovative teaching strategies and more than 100 rich learning experiences, Jarvis and Naested give teachers a wealth of engaging tools to explore the math/art connection with their own students. This connection is established through examinations of natural and human-designed objects, from how pine cone scales spiral out in a Fibonacci sequence to how geometric shapes combine in architecture to form some of the most beautiful structures on the planet.

"Pus Pin's place in design history is nowhere better revealed than in its signature periodical The Push Pin Graphic - a stylish, brash, free-form showcase for the studio's talents and personal interests. For The Push Pin Graphic: A Quarter Century of Innovative Design and Illustration, Chwast and Glaser join design historian Steven Heller and designer Martin Venezky to cull the best of the studio's quirky, celebrated periodical. Featuring the covers and select spreads from each of the eighty-six issues of the publication, The Push Pin Graphic is the first comprehensive account of this design milestone - a unique glimpse into the creative output of a firm that continues to inspire designers to this day."--BOOK JACKET.
