A Handbook of Dates is an unrivalled reference book for historians. It provides in clear, user-friendly form, tables which allow the calculation of the dates (and days) on which historical events have fallen or will fall, from AD 500 to 2100. It describes the calendars and other systems used for dating purposes in England from Roman times to the present, including regnal years. Lists of Easter dates, saints' days, popes, rulers of England and the Roman calendar are also given. In this updated and expanded edition, edited by Professor Michael Jones, the introductory materials for each set of tables has been revised. New tables for legal chronology, old and new style dates, Celtic Easter, adoption of Gregorian style, and the French Revolutionary calendar have been added, while the existing Anglo-Saxon regnal lists have been significantly revised. A Handbook of Dates is an essential tool for all researchers in British history.

Manual of Small Animal Emergency and Critical Care Medicine, Second Edition presents essential information on common emergencies in small animals using a concise, practical outline format. Offering a thorough update to this classic reference, the new edition provides new chapters on orthopedic injuries and wound management, significant revisions to the treatment protocols, and expanded toxicology information, as well as new references and drug information. The book retains its logical division into two parts, the first covering initial stabilization and the second offering a systems approach to specific conditions. As in the previous edition, chapters are extensively indexed and cross-referenced to facilitate ease of use in emergency situations. With many formulas, tables, drug dosages, and illustrations, Manual of Small Animal Emergency and Critical Care Medicine is an indispensable, convenient resource for busy emergency clinicians, whether they are new graduates or seasoned professionals.

Is your child getting lost in the system, becoming bored, losing his or her natural eagerness to learn? If so, it may be time to take charge of your child's education by doing it yourself. The Well-Trained Mind will instruct you, step by step, on how to give your child an academically rigorous, comprehensive education from preschool through high school/one that will train him or her to read, to think, to understand, to be well-rounded and curious about learning. Veteran home educators Susan Wise Bauer and Jessie Wise outline the classical pattern of education called the trivium, which organizes learning around the maturing capacity of the child's mind and comprises three stages: the elementary school (grammar stage), when the building blocks of information are absorbed through memorization and rules; the middle school (logic stage), in which the student begins to think more analytically; and the high-school (rhetoric stage), where the student learns to write and speak with force and originality. Using this theory as your model, you'll be able to instruct your child/whether full-time or as a supplement to classroom education/in all levels of reading, writing, history, geography, mathematics, science, foreign languages, rhetoric, logic, art, and music, regardless of your own attitude in those subjects. Thousands of parents and teachers have already used the detailed book lists and methods described in The Well-Trained Mind to create a truly superior education for the children in their care. This extensively revised fourth edition contains completely updated curricula and book lists, links to an entirely new set of online resources, new material on teaching children with learning challenges, cutting-edge math and sciences recommendations, answers to common questions about home education, and advice on practical matters such as standardized testing, working with your local school board, designing a high-school program, preparing transcripts, and applying to colleges. You do have control over what and how your child learns. The Well-Trained Mind will give you the tools you'll need to teach your child with confidence and success.
