Lesson plans for teachers of grades K-2 explain conflict and its causes, offer examples from literature, and suggest activities for resolving hypothetical conflicts

Noting that elementary school students can learn to resolve basic everyday conflicts without resorting to verbal or physical aggression, this empathy-based program provides a foundation for resolving problems without the intervention of mediators or adults and for providing written documentation of the solution for parents, administrators, and teachers. The program is designed to be introduced to a class in three to four 30-minute lessons. Children learn to write or draw why they are upset, exchange papers and learn why the other person is upset, write or draw a possible solution, share solutions with the other person, and mark the other person's paper to indicate what they agree to do to help end the conflict. Chapters 1 and 2 of the book explain how the process works. Chapter 3 shows how to use the process in the classroom. Chapter 4 illustrates how to set up basic conflict resolution centers that can be used in a variety of locations within a school. Chapters 5 and 6 tell how to use the process in group or individual counseling and at home. Included in this guide are lesson plans, reproducible worksheets, and posters that illustrate the conflict resolution process. Appended are samples showing how the technique works and answers to commonly asked questions. (KB)

Lesson Planning for Skills-Based Health Education offers 64 field-tested lesson plans, learning activities, and assessments for implementing a skills-based approach in your class. The curriculum is flexible and adaptable, and it addresses all the skills in the National Health Education Standards.

In real-life conflict resolution situations, one size does not fit all. Just as a mechanic does not fix every car with the same tool, the conflict resolution practitioner cannot hope to resolve every dispute using the same technique. Practitioners need to be comfortable with a wide variety of tools to diagnose different problems, in vastly different circumstances, with different people, and resolve these conflicts effectively. The Conflict Resolution Toolbox gives you all the tools you need: eight different models for dealing with the many conflict situations you encounter in your practice. This book bridges the gap between theory and practice and goes beyond just one single model to present a complete toolbox - a range of models that can be used to analyze, diagnose, and resolve conflict in any situation. It shows mediators, negotiators, managers, and anyone needing to resolve conflict how to simply and effectively understand and assess the situations of conflict they face. And it goes a step further, offering specific, practical guidance on how to intervene to resolve the conflict successfully. Each model provides a different and potentially useful angle on the problem, and includes worksheets and a step-by-step process to guide the reader in applying the tools. Offers eight models to help you understand the root causes of any conflict. Explains each model's focus, what kind of situations it can be useful in and, most importantly, what interventions are likely to help. Provides you with clear direction on what specific actions to choose to resolve a particular type of conflict effectively. Features a detailed case study throughout the book, to which each model is applied. Additional examples and case studies unique to each chapter give the reader a further chance to see the

models in action. Includes practical tools and worksheets that you can use in working with these models in your practice. The Conflict Resolution Toolbox equips any practitioner to resolve a wide range of conflicts. Mediators, negotiators, lawyers, managers and supervisors, insurance adjusters, social workers, human resource and labour relations specialists, and others will have all the tools they need for successful conflict resolution.

This social skills manual will present to teachers and parents lesson plans complete with literature stories, vignettes, and other activities to help students with disabilities develop social skills in all their environments. The general skills and social skills at work are presented within detailed lesson plans that place emphasis on the vocabulary and the different lesson plan objectives that are essential to each lesson. These generic skills will enhance an individual's ability to access social contexts in which healthy engagement can occur and improve the ability to cope with challenging tasks that are encountered in daily living. The diversity of instructional techniques used to facilitate content mastery include guided and differentiated instruction, modeling, facilitating analysis and reflection of situations involving the appropriate and inappropriate use of key skills, presentation and discussion of positive and negative consequences of each skill, independent learning, and connecting lessons learned to the central idea of the skills being taught. These strategies are arranged in a logical order wherein the material mastered via one technique builds upon prior ones and provides a context for the next one in the instructional sequence. In most cases, it seems highly likely that students who are led through this sequence could not fail to acquire important information about understanding and applying these skills to their own lives. This important new resource will enable professionals to be more effective in assisting students with disabilities in negotiating the many challenges in making the transition from school to the world of adult living.

Interactive thematic units are designed to enhance your students' communication skills. Included are activities to: promote honesty, build listening and empathy skills, discover personal communication styles, express feelings appropriately, develop verbal and nonverbal communication skills, practice assertiveness, resolve conflicts, increase cooperativeness and learning. When we give our students the opportunity to notice and practice good communication skills, they will become more effective communicators, better learners and have more successful relationships. This book shows you how to make these valuable lessons a part of your basic curriculum.

`the how, when, where and what of preparing for a performance is spelled out in considerable detail. If you do accept the challenge at the core of the book you will certainly not want for help' - Junior Education This is the first in a series of creative and practical resources to link the school assembly with the Personal, Social, Citizenship and Health Education (PSCHE) curriculum and the national literacy objectives for children aged five to 11. Using the theme of bullying, this scheme of work starts with a lively and dramatic student performance by older pupils in the primary school, including every member of the class. Full scripts, music and dance scores are provided. The bullying scenes involve the audience by focusing on the role of the bystanders. Comprehensive teacher notes, activities and resources are also included for follow-up work with each year group. This comprehensive pack,

produced by two experienced teachers, is useful for anyone running an anti-bullying initiative in their primary school. Bridget Smith has worked for many years as a specialist in deafness within the health service, as part of a Cambridge University research group, and in the voluntary sector. She has taught as a general practitioner in primary and middle schools with specific responsibilities for music and IT. As well as having tutored children who are excluded from school she is regularly involved in coaching music and sport and in the development of local facilities for youth. Kate Baker has created and developed effective assemblies with children over many years, as class teacher, literacy and drama co-ordinator and Deputy Head. She has also devised and directed productions in schools, at children's drama and music courses and for the theatre. Kate still teaches in primary and middle schools and is currently developing more ideas and materials to enrich the curriculum for Key Stages 1 to 3.

Have you been searching for a way to resolve conflict that doesn't involve a series of ten or more steps? Do you think that perhaps a key to conflict resolution must come from within? How can teachers and pre-service teachers help their students learn and use strategies for conflict resolution? Tools for Conflict Resolution is a practical method for teaching conflict resolution skills to students in grades K-12. Conflict is a part of everyone's life. It is the authors' belief that if each student is given tools for handling conflict, and these tools are used each time conflict arises that soon students become proficient conflict managers. This book begins with a chapter, which introduces Peter Senge's five disciplines: Personal Mastery, Mental Models, Shared Vision, Team Building, and Systems Thinking. After reading this chapter, the reader is able to embrace the five disciplines and begin practicing the adult level. As teachers, we teach from who we are. The rest of the book is filled with actual lesson plans, which are directly tied to the Multiple Intelligences Theory and are developmentally appropriate for students. Case studies, role-plays, skits, literature, songs, and co-operative learning activities are the primary instructional methods used to teach students conflict resolution skills. An annotated bibliography is included to assist teachers in extending lessons. These lessons may be taught during Social Studies as a unit on character education or could be used during a guidance class.

Packed with strategies for lesson planning and delivery, this research-based book shows how implementing EDI can improve instruction and raise achievement in diverse classrooms.
