The Sea Survival Manual is the definitive book on the subject for anyone aboard a yacht of any size. It is aimed at the yachtsman or seafarer who is likely to proceed to sea out of the sight of land, whether for pleasure or professional reasons. Fully compliant with the IMO (International Maritime Organisation) resolutions and MCA (Maritime Coastguard Agency) regulations it embodies Sea Safety checks issued by the MCA and RNLI and is completely international in its appeal. Includes chapters on safety and survival equipment, Global Maritime Distress and Safety Systems (GMDSS), liferafts, grab bags, medical equipment and advice, first aid and emergency treatment, abandoning ship, survival in a liferaft and rescues at sea. This is the first modern book to tackle the subject from the small craft point of view.

PCMag.com is a leading authority on technology, delivering Labs-based, independent reviews of the latest products and services. Our expert industry analysis and practical solutions help you make better buying decisions and get more from technology.

This book constitutes the refereed proceedings of the 17th International Conference on Concurrency Theory, CONCUR 2006, held in Bonn, Germany in August 2006. The 29 revised full papers presented together with 5 invited papers were carefully reviewed and selected from 101 submissions. The papers are organized in topical sections on model checking, process calculi, minimization and equivalence checking, types, semantics, probability, bisimulation and simulation, real time, and formal languages.
